

Transmissions

Manual and automatic transmissions for cars, CVs, and special vehicles

Dual clutch transmissions for cars

Hybrid systems for cars and CVs

Synchronized transaxles, powershift transmissions, as well as continuously variable transmissions for tractors

Hydrodynamic and hydrostatic powershift transmissions for construction machinery and lift trucks

Electric drives for lift trucks

Surface and pod drives for boats

Transmissions for boats and ships

Drives for mixers, rail vehicles, aircraft, and industrial engineering

Elevator gearboxes

Driveline

Axles

Front and rear axel systems for cars and CVs

Corner modules for cars

Axles and axle components for off-road machinery

Chassis Tec

Steering Systems

Mechanical steering systems, hydraulic, electro-hydraulic, and electric power steering systems for cars

Hydraulic power steering systems and rear axle steering systems for CVs and special vehicles

Steering pumps, steering columns, and steering accessories for cars and CVs

Gearshift systems for cars and CVs

Control systems for CVs, off-road machinery, special vehicles, boats, and ships

Clutch systems, torque converters for cars, CVs, off-road machinery, and special vehicles

PTOs and retarder systems for CVs and special vehicles

Axle drives, bevel gear sets, differentials, and powertrain suspension systems for cars and CVs

Clutches and brakes for industrial engineering

Propellers for boats and ships

Driveline Components

Damper modules and damping systems for cars, CVs, rail vehicles, racing and motorcycles

Tie rods, stabilizers, stabilizer links, control arms, suspension joints, leveling systems, and crash-absorption elements for cars

4-point links, v-links, torque rods, tie rods, stabilizers, suspension joints, and cabin suspensions for CVs

Chassis mounts for cars, CVs, agricultural machinery, rail vehicles, and industrial engineering

Precision plastics parts for cars and CVs

Chassis Components
