Trainee Automotive Innovation & Digitalization

We are looking for candidates for our ZF Global Trainee Program, with the option of starting in July or October of 2018

Your tasks:

- Organizing and implementing four individual projects at different ZF locations (three projects within home country, one project abroad)
- Working on a joint group project throughout the complete course of the program
- Participating in different workshops and seminars
- Getting to know our broad product portfolio by means of a three-week assignment in production
- Setting up a comprehensive network within ZF and taking over a permanent position after completion of the trainee program

Your profile:

- A degree in Electrical Engineering, Information Technology, Computer Science, Software Development, Mechatronics, Mechanical Engineering, etc. with above average grades (preferably Master's degree)
- Relevant internships in the above mentioned areas
- Study or work experience abroad
- Fluent in written and spoken English, good knowledge of German would be an asset
- Willingness to work independently and autonomously with a high degree of personal initiative
- Great communication skills and willingness to work in an international team, mobility, interdisciplinary interest, creativity
