

ZF GROUP - ZF AUTOMOTIVE UK LTD UK GENDER PAY GAP REPORT - 2022

Foreword

ZF is a global technology company supplying systems for passenger cars, commercial vehicles and industrial technology, enabling the next generation of mobility. ZF allows vehicles to see, think and act. With its products, the company contributes to reducing emissions, protecting the climate and enhancing safe mobility. The Group has a global workforce of around 164,900 with approximately 168 production locations in some 33 countries as well as 19 main development locations in nine countries.

ZF's vision for the UK is to create a place to work which values diversity; where employees are recognised for their contribution and where our locations are recognized both internally and externally as competitive, innovative and are valued for excellence.

Companies are required by law to report their gender pay gap for any legal entities in the UK with 250 or more employees. In this report, we provide our gender pay gap information for ZF Automotive UK Ltd, a UK legal entity through which staff are employed at various locations throughout the UK. As at April 5 2022, ZF employs around 1,855 people within this UK legal entity, ZF Automotive UK Ltd.

Employees are involved in engineering, manufacturing, R&D and various corporate functions.

Measuring the pay gap

The gender pay gap is a measure of the difference between men's and women's average earnings across the whole of an organisation. It is expressed as a percentage of men's earnings. It is important to note that the gender pay gap is not the same as 'equal pay' – Equal pay means that men and women performing equal work must receive equal pay, as set out in the Equality Act 2010.

How we calculate the median difference: ZF Automotive UK Ltd

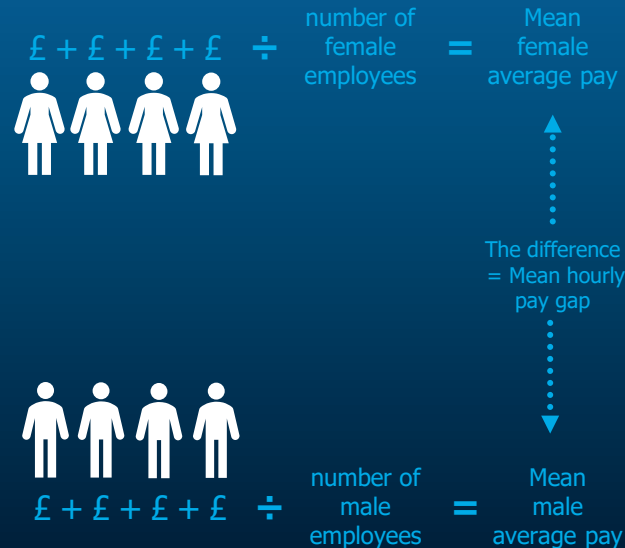

Companies are required by law to report their gender pay gap for any legal entities in the UK with 250 or more employees.
