

About ZF

ZF is a global technology company supplying systems for passenger cars, commercial vehicles and industrial technology, enabling the next generation of mobility. ZF allows vehicles to see, think and act. In the four technology domains of Vehicle Motion Control, Integrated Safety, Automated Driving, and Electric Mobility, ZF offers comprehensive product and software solutions for established vehicle manufacturers and newly emerging transport and mobility service providers. ZF electrifies a wide range of vehicle types. With its products, the company contributes to reducing emissions, protecting the climate and enhancing safe mobility. With around 165,000 employees worldwide, ZF reported sales of €43.8 billion in fiscal 2022. The company operates 168 production locations in 32 countries.

About ZF CVS INDIA

A part of ZF Group’s Commercial Vehicle Solutions Division, ZF Commercial Vehicle Control Systems India Limited is India’s market leader for advanced braking systems, conventional braking products and related air assisted technologies and systems in India. Powered by its vision for accident-free driving and greener transportation solutions, ZF CVS India provides industry-leading solutions in the Autonomous, Connected and Electric (ACE) domains to commercial vehicle industry in India. Headquartered in Chennai, ZF CVS India has five manufacturing facilities, an advanced technology development center, a vehicle testing facility and a nation-wide aftermarket distribution and service network.

ZF shapes the future in 4 technology domains

ZF provides the capability to shape the future of commercial transportation systems. Our technologies and services for commercial vehicles and fleets make them more efficient, safe, connected, intelligent and automated wherever they operate. We partner with customers to introduce integrated and innovative solutions in key domains like Automated Driving, Electric Mobility, Shared Transportation and Fleet Operation Digitalization to enable Next Generation Mobility. NOW.

Automated Driving

ZF CVS India is pioneering global systems and technologies that support the CV industry's vision for automated commercial vehicles that operate efficiently and safely. Partnering with OEMs for everything from automated to autonomous driving, ZF CVS India offers the latest technologies from advanced ADAS technology and smart controls to intelligent systems.

Enabling Connectivity - Maximizing Fleet Profitability

As vehicles become more intelligent and connected to the Internet of Things, ZF CVS India is continuously driving technological and innovation in telematics, offering end-to-end solutions helping commercial fleets significantly enhance all round safety, increase fleet efficiency and productivity.

Electric Mobility

As the commercial vehicle industry strives towards environmental sustainability, ZF CVS India innovates green technologies including e-braking systems, e-compressors for electronically controlled vehicles to enhance vehicle fuel and operational efficiency.

A Journey of Excellence

2023

Responsible Manufacturer
Gold Award, Hensei Kaizen

Sustainability Excellence
Award, TATA Motors

Partnership & Collaboration
Award, VECV

Best Technology Partner,
Mahindra Truck & Bus

Green Channel Supplier,
Ashok Leyland Defence

2022

Manufacturing Excellence
Award, Hensei Kaizen

Digitalization Robotics and
Automation (DRA) award, CII

Q-Prime Award, DICV

2021

Energy Efficiency Award, CII
Technology Innovation Award,
VECV

2020

Supplier Samrat Award,
