From Lemförder to ZF

Innovative Chassis Technology since 1947
Exhibition of the company history

Last updated: 2017

WELCOME TO THE COMPANY EXHIBITION

From Lemförder to ZF -
Innovative Chassis Technology Since 1947

The ZF locations around the Dümmer lake look back on a long company history. In recognition of this fact, a historic company exhibition was established at the Dielingen location.

The exhibition focuses on Dr. Jürgen Ulderup, the founding years, the Lemförder locations and the economic and technical development of the company.

We invite you to learn more about the company history, current and future topics, and about ZF products developed and produced in the Dümmer lake region.
