# WABCO TOOLBOX PLUS™ DIGANOSTIC SOFTWARE

TOOLBOX PLUS™, the latest version of WABCO TOOLBOX™ diagnostic software, helps expedite vehicle and trailer diagnosis and minimize downtime. The PC-based advanced diagnostic software features a redesigned homepage interface, expanded diagnostic capabilities and support for the WABCO product portfolio, including the next generation trailer anti-lock braking system, iABS™.

iABS is helping to raise the IQ of commercial trailers through connectivity and data integration, improving overall communication between the tractor and the trailer and enabling deeper fleet intelligence capabilities. Built on the foundation and expertise that produced WABCO Easy-Stop™ ABS, iABS features up to 20 optional Intelligent Trailer functions and its 5V CAN communication allows for connecting and communicating to systems beyond braking.

## PRODUCT OVERVIEW

TOOLBOX PLUS enables users to quickly and easily run accurate diagnostics to get trucks and trailers back on the road, maximizing uptime. With a few simple clicks, users can diagnose fault codes, view repair and installation instructions and access maintenance manuals.

In addition to iABS, TOOLBOX PLUS also provides diagnostic support for prior generations of WABCO trailer ABS (including Enhanced Easy-Stop™ and Easy-Stop™), Roll Stability Support (RSS) and TailGUARD™ Reversing Collision Avoidance System.

## KEY TRAILER FEATURES

- Displays specific fault codes related to the failure versus a generic/blink code, making it possible for technicians to identify which specific system(s) have failed
- Facilitates configuration and modification of ECU parameters, including over 20 Intelligent Trailer functions—examples include adjusting lifting and lowering pressures for Automatic Lift Axle components, editing the stopping distance for TailGUARD brake activation and more
- Activates ABS components to verify system integrity, component operation and installation wiring for end of line check
- Provides reverse Diagnostic Trouble Code (DTC) lookup

TOOLBOX PLUS™ will enhance your diagnostic experience and help avoid unnecessary downtime and cost by preventing improper parts replacement and repairs.

# WABCO PRODUCTS SUPPORTED BY TOOLBOX PLUS™

## TRUCK

- SmartTrac® Pneumatic ABS
- Hydraulic ABS and Hydraulic Power Brake (HPB)
- EBS
- OnGuard®
- OnLane®
- OnSide®
- OptiRide® Electronically Controlled Air Suspension (ECAS).

## TRAILER

- iABS™
- Enhanced Easy-Stop™ and Easy-Stop™ Trailer ABS
- Roll Stability Support (RSS)
- TailGUARD™ Reversing Collision Avoidance System

### **About ZF Friedrichshafen AG**

ZF is a global technology company and supplies systems for passenger cars, commercial vehicles and industrial technology, enabling the next generation of mobility. ZF allows vehicles to see, think and act. In the four technology domains Vehicle Motion Control, Integrated Safety, Automated Driving, and Electric Mobility, ZF offers comprehensive solutions for established vehicle manufacturers and newly emerging transport and mobility service providers. ZF electrifies different kinds of vehicles. With its products, the company contributes to reducing emissions and protecting the climate.

ZF, which acquired WABCO Holdings Inc. on May 29, 2020, now has 162,000 employees worldwide with approximately 260 locations in 41 countries. In 2019, the two then-independent companies achieved sales of €36.5 billion (ZF) and \$3.4 billion (WABCO). For more information, visit: [www.wabco-na.com](http://www.wabco-na.com)
