Motor power	700 watts at 112Nm. max. 112Nm/180.; Cadence 40U/min: 55 Nm, 60-90U/min: 112Nm
Speed	25 km/h or 45 km/h
Sensors	Cadence-, power- and speedsensor
Chainrings	Single or double chain ring possible
Chainrings size	Bolt circle; (4 point, 104mm); Belt possible 30 teeth min 50 teeth max.
Axle standard	ISIS®Drive
Q-factor	178mm (ISIS®-Axle width 135mm)
Chain guide Chain line	ISCG05 System prepared 52,00mm (Boost-Standard)
Weight Color	3,6 KG Black
Motor mounting	2x3 M6 Screws
Use case	Cargo / MTB
Support modes	
Batteries	Individual coordination with OEM
Displays	Open system - Individual adaptation from OEM
Service	Servicetool for OEM's and dealers
Options	Bluetooth Connectivity

SACHS RS DODONE RO

 $\mathbf{\Sigma}$

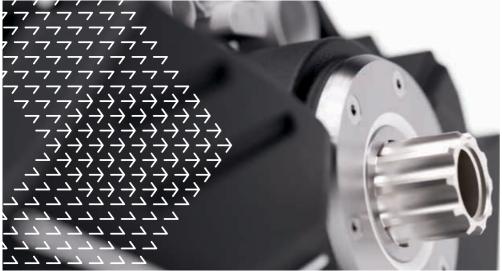

ZF Micro Mobility GmbH Escher-Wyss-Straße 25, 88212 Ravensburg Info.zf-micromobility@zf-com I zfmicromobility.com

TSACHS RS

The Sachs RS is a powerful carefree motor, for dealers as well as customers. It delivers more and longer power than the e-bike motors currently available on the market. Numerous press test an independent test institute have clearly confirmed the performance data of the Sachs RS with extensive riding tests and test bench measures.

The advantages of the Sachs RS

47% more torque in comparison

Powerful support, especially uphill, when necessary.

Full torque already at low cadence

Even technically less experienced riders can easily experience the Sachs power, in stop and go or on cracking mountain tours.

High efficiency

Despite the power you are not going to lose any range. Bei gleichem Energieverbrauch bringt der Sachs RS jeden schneller auf den Gipfel.

Fully configurable

Whether lefsure, cargo or mountain bike: The Sachs RS can be individually adjusted to each type of rider and thus delivers the perfect setup.

Power with endurance

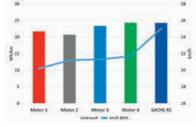

In riding tests, the Sachs RS has achieved extremely high ranges. More kilometers and more meters in altitude mean more riding pleasure on sporty tours or more safety in the city.

Further advantages for you as a dealer:

ZF Micro Mobility has established a Premium Service for dealers, from which all Sachs RS customers benefit. Our Service Tool is adjusted to the need of dealers: Simple and user-friendly. Service in the usual high quality.

Maximum speed

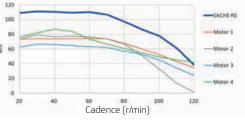

with comparable energy consumption

Speed [km/h] and energy consumption on an uphill gradient of 6%

Superior torque

over the entire operating range

Torque [Nm] on the pedal crank via cadence [U/min]
