

Appendix 4: Local specific lead times

Valid for location Wagenfeld / Division C

Version: 01.04.2016

- Transport days are the days of the week, namely from Monday until Friday. Saturdays, Sundays and holidays extend the stated due dates by the respective number of days.
- The named lead times start with the transport notification of the shipment. The time of transportation starts with the provision of the goods.
- Loading and unloading is in general not possible on Saturdays. Some receiving plants can define Saturday as a loading and/or unloading day in the local specification temporarily or permanently.
- Time of transportation for outgoing goods (e.g. transport of empties, reshipment of material, etc.) is similar to the time of transportation of regular material shipments. Empties have the same priority as regular material shipments.
- Lead times of small shipments see appendix 2.
- If the transport service provider is not able to meet the planned pick up date, he has to inform the material planner proactively. This has to be done as well if a transport is delayed and the planned delivery date cannot be met. In such cases, adjustments need to be clarified with the material planner.

Underline for following chart	
Day A	transport notification
Day B	Provision and pickup (for certain lanes transport notification and loading on day A is possible → delivery on day B possible)
Day C, D, ff	Delivery
nn	Adjustment with the related ZF plant/ service provider in individual cases necessary.

Appendix 4: Local specific lead times

Land freight Germany

Shipping area			Lead time	
ISO-Code	Country	Postal code / Region	Consolidation	Complete load
DE	Germany	0	C	C
DE	Germany	1	C	C
DE	Germany	2	C	C
DE	Germany	3	C	C
DE	Germany	4	C	C
DE	Germany	5	C	C
DE	Germany	6	C	C
DE	Germany	7	C	C
DE	Germany	8	C	C
DE	Germany	9	C	C

An A-B-B lead time, contrary to the defined run time A-B-C, is necessary for some suppliers. The relevant terms will be separately coordinated with the service providers.
