

## Appendix 5: Location specific shipping instructions

---

### Valid for location Schweinfurt / E - Division and Business Units CPT, PPF, TNP and TCR, ZF Race Engineering GmbH and Machine and Tool Plants

Version: March 1<sup>st</sup>, 2021

#### 1. Necessary documents for the goods receipt

- Waybill for every unloading point in duplicate edition
- Delivery notes
- Customs documents for goods out of third countries (Invoices, AWB or B/L)
  - ➔ Especially the T1
- No cartage notes or handheld scanner

#### 2. Requirements for pick-ups / dispatch

- Waybills and delivery notes should be generally handed over with customer goods
- All pick-up vehicles have to register with complete and correct pick-up information
- Pick-up advices take place the day before pick-up until latest 3 p.m. (except Germany)
- We need vehicle pick-up information until 9 a.m. on day of loading to prepare goods

#### 3. Requirements regarding the equipment of the forwarder

- Only sideways (lateral) loading and offloading of canvas cover trucks possible
- No processing of box trucks
- Vehicles must meet loading security standards and be roadworthy and road-safe

#### 4. Requirements for the forwarder

- The deliveries have to be within the below mentioned timeframes
- Vehicle registration for goods receipt and pick-ups at the gates at parking lot. All goods receiving transactions will be handled at the entrance gate office.
- Subcontractors have to report "by order of forwarder..." (e.g. o. b. of "John Dow")
- Pick-ups are allowed only at the loading points, mentioned in the loading advices
- All trucks have to carry the following equipment when entering the plant
  - **Reflective vest** (Norm EN 471)
  - **Safety shoes** (DIN EN ISO 20345 / obsolete: DIN EN 345)
  - **Sufficient loading security material** (non-slip mats, edge protection, belt strap with validity and without damage, clean swept freight hold)
- **Drivers have to wear the reflective vests and safety shoes when leaving the truck.**
- Truck drivers initially have to stay with their vehicles until loading staff arrives

## Appendix 5: Location specific shipping instructions

---

### 5. Other special issues

- Pool empties (esp. wire-mesh pallet), account processing via forwarder
- All deviations have to be agreed on with the inbound or outbound department, e.g. for urgent or expedited shipments
- We receive from our service provider a so called "pro-active list" of shipments which, according to the pick-up orders of the suppliers or loading information of their partners, have to be delivered to Schweinfurt, but are missing for some reasons. ZF clarifies this information asap and gives a feedback to our service provider regarding the required delivery date. Any special measures will be charged to the causer. For this it is indispensable that the suppliers use the Avis that contains either the ZF material number or the ZF order number.
- There is currently a daily trailer exchange for the groupage freight in the plant North, which takes place between 14.30 and 16.00.
- The deliveries have to take place separately by the unloading points in the plants North and South.
